RG104 E-1 Box 160

Nov 7th 1869

Supt of U S Mint
Philadelphia Pa

Dear Sir

I have seen several parties that declare there is a letter M on neck or just under the neck of the Medalion head on the United States Standard Silver dollar— Also a letter M in the Wreath under the Eagle— There has been a wager made that upon this Joint— and I fail to see anything looking like a letter M in these places

Please advise me if there is or was any such letter intended to be made in the design of the dollar referred to

Very Respectfully Yours
